Experience

Our team supports recurring work orders, emergency response, and small-scope projects. From troubleshooting and repairs to upgrades and replacements.

We're built for work-order environments: clear communication, on-site professionalism, and closeout documentation that makes approvals and payment simple.

Company Overview

Voltek Electric is a Chicago-based service contractor supporting sign/lighting and ongoing facilities maintenance for multi-location operators. We deliver reliable electric and signage to responsive service calls: built around clear communication, fast turnaround, and clean closeouts. Our team is structured for repeatable work across many sites, with consistent reporting and documentation that makes it easy for facilities teams, property managers, and work-order platforms to manage outcomes.

Core Capabilities

Voltek Electric provides end-to-end field execution for construction and maintenance, including:

- Electrical troubleshooting, repairs, and upgrade
- Lighting maintenance and replacements
- Sign installation & service
- Multi-site rollouts and refresh programs
- Preventive maintenance support and punch-list completion

Instruction: Updating Dynamic Graphs in the Capability Statement

Follow these steps to update and customize the dynamic graphs in the fact sheet:

1. **Open the Linked Google Sheet**
 - Access the Google Sheet linked to the graph.
2. **Make a Duplicate Copy**
 - Click on **File > Make a copy** to create an editable version of the sheet.
3. **Modify the Data**
 - Update the values as needed to reflect the required changes.
4. **Customize the Graph (Optional)**
 - Click on the three-dot menu (⋮) in the upper right corner of the graph.
 - Select **Edit chart** to fully customize the graph according to your needs.
5. **Copy the Updated Graph**
 - Click on the three-dot menu (⋮) in the upper right corner of the graph.
 - Select **Copy chart** to copy the updated graph.
6. **Paste the Graph into Google Slides**
 - Open the fact sheet in Google Slides.
 - Paste the copied graph onto the slide.
7. **Resize and Replace the Graph**
 - Adjust the size of the new graph as needed.
 - Delete the old graph and replace it with the updated one.

After following these steps, all updates will be successfully applied.
